

# Ready to Come Out of Hibernation?

## Get Kissable Lips & Rosy Cheeks!

It's been a long, cold winter here in Connecticut. We all got through it the best we could, trying to appreciate that at least our masks kept our faces warm during a pandemic. Although the weather might not feel like it yet, spring will be here before we know it. We can go back to dining al fresco as restaurant patios open up and people begin to venture out after being trapped inside for so long.

### Face It, Spring Is Here!

It'll be a breath of fresh air to safely take off our masks outside and just soak in the warmth. But are you ready to come out of hibernation?

Re:nu 180 Medspa, with locations in Southington and Newington, specializes in services for the face such as anti-aging treatments, dermal fillers and injections, wrinkle reduction treatments, collagen induction therapy, double chin reduction, eyelash enhancement, hair restoration and more.

### Kiss Me, Gorgeous!

You don't have to be Irish to know just

how important it is to have gorgeous, kissable lips! It's the season to pucker up and there is nothing as youthful as full, dewy lips.

Re:nu 180 Medspa offers specialized lip fillers made out of hyaluronic acid to masterfully plump up your lips. Hyaluronic acid is a natural substance that can always be found inside your skin, but it tends to dissipate as you age, which is why your lips get thinner.

Hyaluronic acid will attract moisture to the area and give you instantly luscious lips full of volume that still look 100% natural.

"We love using Restylane® Kysse and Juvéderm® Volbella for lip injections with superior sculpting and smooth results," explains Christina Baden, APRN, medical director and founder of Re:nu 180. "We have a gentle, natural approach so that you never look fake, or overdramatic. We don't want duck faces. We want, natural, kissable lips. Less is more."

### Good-bye Snow, Hello Glow!

As we shed our heavy layers, fashion starts to lighten up for the season and we see more florals, pastels and decidedly feminine looks. If our Bridgerton binging taught us anything, it's that a youthful face with glowing skin and rosy cheeks has always been in style.

Ready to get cheeky? Hyaluronic acid has been in your skin since you were born. Its job is to help your skin retain its moisture and softness, but over time, it dissipates. As a result, the volume in your cheeks becomes less with each passing year.

Juvéderm® Voluma and Restylane® Lyft are both fillers with hyaluronic acid that target the loss of volume in the cheek area, lifting and smoothing the contours of your face to achieve a sculpted, youthful appearance.

If you're interested in scheduling a consultation to learn more, contact us at (860) 384-6555 or visit [Renu180.com](http://Renu180.com). We only allow one patient in the facility at a time, to ensure a safe, personalized experience.

*Re:nu 180 Medspa was established in 2016 by Christina Baden, APRN, with a mission to create a place where patients can relax, unwind, feel beautiful and renew their spirits. The flagship location is on 550 North Main Street in Southington, and the newest location is at 262 Brockett Street in Newington – with a goal to open more locations. Services include: dermal fillers and injections (Juvéderm®/Restylane®/Sculptra®), wrinkle reduction treatments (Botox®/Dysport®), collagen induction therapy (PRP Microneedling), double chin reduction (Kybella®), PRP Hair Restoration, eyelash enhancement (Latisse®), hand restoration (Restylane Lyft®) and Vitamin B12 Shots. Rest, Relax & Re:nu 180 – A New Skincare Experience – offers products such as lightening serums, eye creams, cleansers, anti-aging moisturizers, and more.*
